*Time- 9 AM to 5 PM*

**BABU BANARASI DAS**

**NORTHERN INDIA INSTITUTE OF TECHNOLOGY**

**LUCKNOW U.P.- 226028**

Recognizing the skills demanded in the industrial world and the far-reaching applications on Turbo Charger & Diesel Engine, Department of Mechanical Engineering BBDNIIT organized the two days workshop on “ **Hand Tools and Power Tools, Turbo Charger and Exhaust System of Diesel Engine**” by Mr. Vijay Bhambri.

The occasion was inaugurated by Prof. (Dr.) V. K. Singh, Director (Engg.) BBDNIIT who enlightened the students with the importance of Turbo Charger and Exhaust System of Diesel Engine in current scenario. The workshop was organized under the mentorship of Dr. N. K. Mishra, Professor & Head (ME) & his all Faculty members of Department of Mechanical Engineering, BBDNIIT.

The total number of 142 students of second year and final year participated and made this event successful.

The purpose of the workshop was to provide the information about all types of machining tools and description of all operations performed on Lathe machine.

Other than that students were also exposed to practical knowledge of disassembly and assembly of different parts of Turbo Charger and Exhaust System of Diesel Engine.

At the end of the workshop a motivational speech was delivered by the Head of Department and Director (Engg.).

The department feels proud to organize such a successful event and would like to convey thanks to Director (Engg.) and management for their cooperation and facilities provided for organizing such a workshop.
