

Department of Mechanical Engineering  
Report on Industrial Visit to  
WABCO INDIA, BARABANKI UTTAR PRADESH  
February 17th, 2018

---

“WABCO INDIA designs, manufactures and markets conventional braking products, advanced braking systems, and other related air assisted products and systems. The company has grown significantly in the Indian commercial vehicle market and also serves its aftermarket customers through a wide national distribution network. With five world-class manufacturing facilities spread across India, Application Engineering Centre in Pune, technology centre and a vehicle testing facility in Chennai, WABCO INDIA excels in engineering and manufacturing, serving customers locally and through WABCO globally. WABCO INDIA Limited has over 4400 employees”

Department of Mechanical Engineering BBDNIIT Lucknow organized Industrial visit to WABCO PVT. INDIA LTD Barabanki. Industrial visit was organized for the

students of B.Tech (M.E), 3rd Year .The objective of this visit was to provide practical exposure of the most advanced Air Braking System to them. During the visit the student interacted with Mr. Manish Gupta (HR Executive WABCO) who gave the presentation on WABCO Pvt India Limited.

After having the snacks which was followed by visiting plant with safety instructions since safety is the first priority of WABCO Group. At the plant the students were explained about time and effort WABCO took to serve best Quality to the people.

The students were explained all the steps of assembly and inspection involved in the plant.

The whole visit was so informative and we all learnt the basics of how WABCO work.

The entire student expressed their thanks to the Wabco Officials for the opportunity given. The department would like to thank the Director (Engg.) and the management for providing all the facilities which was very much required for organizing the visit.
