**B TECH  
(SEM II) THEORY EXAMINATION 2023-24  
AI FOR ENGINEERING**

Time: 3 Hours

Total Marks: 100

Note: 1. Attempt all questions. If require any missing data, then choose suitably.

**SECTION A**

1. Attempt all questions in brief.

Q.no	Question	Marks	CO
a.	Define AI/ML/ Intelligent and discuss its use.	2	1
b.	Explain the different domains of AI.	2	1
c.	Define data and its importance.	2	2
d.	Identify the challenges faced by speech recognition system.	2	2
e.	How NLP can be beneficial in real life situation?	2	3
f.	What are the limitations of machine translation?	2	3
g.	Explain how deep learning is different from machine learning.	2	4
h.	What is the meaning of learning in artificial neural network?	2	4
i.	What is the difference between speech recognition and voice recognition?	2	5
j.	Define recursive vision.	2	5

**SECTION B**

2. Attempt any three of the following:

Q.no	Question	Marks	CO
a.	How artificial intelligence systems are different from traditional system?	10	1
b.	Discuss the importance of Data Visualization. List one various tool for Data Visualization in brief.	10	2
c.	Compare regression, classification and clustering with example.	15	3
d.	Explain the working of Convolutional Neural Network.	10	4
e.	Describe the working of Reinforcement.	10	5

**SECTION C**

3. Attempt any one part of the following:

Q.no	Question	Marks	CO
a.	There are five ethical concerns related to AI. Discuss three in detail.	10	1
b.	Explain various skills required to become an AI Engineer.	10	1

4. Attempt any one part of the following:

Q.no	Question	Marks	CO
a.	Explain step by step working of speech recognition system.	10	2
b.	What are the different stages of Data Processing?	10	2

5. Attempt any one part of the following:

Q.no	Question	Marks	CO
a.	Draw a state and class diagram to represent the working of Charles Differential between Charles and Virtual Assistant.	10	3
b.	Explain Python Language Understanding and Natural Language Generation.	10	3

6. Attempt any one part of the following:

Q.no	Question	Marks	CO
a.	Compare biological and artificial neural network. What is Universal Approximation Theorem?	10	4
b.	Explain the working of Generative Adversarial Network.	10	4

7. Attempt any one part of the following:

Q.no	Question	Marks	CO
a.	Explain the difference between Reactive and Artificial Intelligence.	10	5
b.	How Image Recognition and Object Identification are used in Traffic an autonomous Car?	10	5
